Color restoration for laser printing

16 independently calibrated pages | Native 300 dpi | Letter size

The source has 2550 x 3300 pixel scans on 8.5 x 11 inch pages. Yellowing and darkening vary both between pages and within individual pages. Corrections use separate page calibrations, with spatial paper estimates where useful and specific protection for photographs, intended color, and the newer mailing label.

What the print PDF preserves

All 16 pages, their original dimensions, orientation, placement, and existing searchable OCR text. Corrected scan images are stored losslessly, with no downsampling or additional JPEG compression. Color images carry an embedded sRGB profile; the two monochrome pages are encoded as grayscale.

How color was judged

Neutral paper and printed white areas were sampled independently of blue borders, yellow price panels, skin, and illustration colors. Most paper was brought close to neutral white while retaining grain. Shadows were opened where artwork needed it, and neutral text received restrained contrast cleanup. No automatic whole-document white balance, binary threshold, generative redraw, or aggressive halftone removal was used.

Print settings

Use a color-managed PDF viewer, the printer's highest-quality mode, the correct paper setting, and suitable laser-rated paper. Disable toner saving and extra automatic photo enhancement. Let either the application or the printer manage color once. For original-size edge-to-edge output, print at 100% on larger stock and trim, or use a printer with borderless support. On an ordinary letter-size laser printer, select Fit to printable area to retain all content.

Proofing and limits

The following 16 pages compare each source scan with its correction and explain the page-specific decisions. Proofs are reduced for review; use the separate print PDF for printing. A 300 dpi scan cannot recover detail already lost to the original print, scan focus, JPEG encoding, wear, or clipped source channels. No printer/paper ICC profile or physical proof was supplied, so a calibrated hard-copy proof is still needed to certify publication color on a particular device.

01 Front cover

Observed: Dark, unevenly yellow paper, with gray/cyan contamination at lower right and stronger orange aging at bottom.

Correction: Spatial paper and color normalization; moderate tonal opening; firmer blacks. Sonic blue, peach skin tones, red lettering, and the original print texture are retained.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 229/220/204 to 250/253/252 | Native-pixel sample: (140, 600, 900, 680)

02 Staff photograph and letter

Observed: Bright but uneven cream paper; more yellow at right and bottom. Dark detail in the group photograph.

Correction: Local substrate neutralization with restrained exposure change. The photo receives reduced color correction and a small separate tonal lift to retain natural skin and the tan building.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 248/227/200 to 251/250/249 | Native-pixel sample: (700, 3000, 2100, 3080)

03 Illuminator advertisement

Observed: Warm headline whites, heavily yellowed footer, and compressed reddish/magenta product shadows. The lavender background is intentional.

Correction: Separate headline/illustration and footer calibration, with a short blend at their existing boundary. Modest illustration tonal opening and reduced green deficiency in dark product detail.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 246/221/193 to 248/250/249 | Native-pixel sample: (600, 3150, 2000, 3220)

04 Publication information

Observed: Moderately warm central paper, stronger lower-right yellowing, and brownish gray fine text.

Correction: Local neutralization, a firmer black point, and gentle neutral-shadow cleanup. Red headings and the blue marble frame are retained.

The ***Game Informer Magazine*** is published quarterly by FUNCO, Inc., 4948 Highway 169 North, New Hope, MN 55428. (612)533-8118 or FAX (612)533-8280.

The Editor welcomes company product information for all video games. Such materials should be addressed to: Editor, *Game Informer Magazine*, 4948 Highway 169 North, New Hope, MN 55428. Editorial telephone and FAX numbers are noted above. Unsolicited manuscripts cannot be returned or acknowledged.

Entire contents copyright 1991, *Game Informer Magazine*. All rights reserved; reproduction in whole or in part without permission is prohibited. *Game Informer* is a trademark of FUNCO, Inc.

Products named in these pages are tradenames, or trademarks, of their respective companies.

For a free copy of the *Game Informer Magazine*, please call Gary Gillem at our Circulation Department (612)533-8118.

How To Use This Publication

1. PHONE ORDERS
The fastest and simplest way to order is by telephone. We are sorry, but in order to keep our prices to you as low as possible, we do not offer a "toll-free" line. Just dial (612)533-8118 and one of our friendly Funco agents will be happy to receive your call. Our non-holiday hours are based on **CENTRAL STANDARD TIME:**

MON-FRI 7:00 AM - 10:00 PM
SAT 8:00 AM - 8:00 PM
SUN 10:00 AM - 7:00 PM

Retail Stores
When visiting Minnesota, please feel free to test out any of your favorite games at one of our nine retail outlets in these following cities:
New Hope • Brooklyn Center • Blaine • Roseville • Maplewood • West Saint Paul • Burnsville • Eden Prairie • Minnetonka

2. PAYMENT
All of our game prices listed in this magazine will be found on pages seven and eight for the Nintendo line, and page ten includes prices for both Sega Genesis and Neo Geo. There are two sets of dollar amounts to the right of each title. The second set of numbers is the **CASH** price (the price when paid by personal check, money order or cashier's check) of our previously played games. This price will be honored until our Winter '91 *Game Informer Magazine* is issued. For **CHARGE** orders (VISA, MASTERCARD, DISCOVER CARD), please add $1.00 per game to our sell price. Be sure to include both your card number and expiration date when ordering by credit card. **For your protection against fraud, we only ship to the billing address of the card holder.** Please allow 21 days for personal checks to clear. Sorry, no C.O.D.s. MN residents add 6.5% sales tax.

3. SHIPPING
We ship by UPS, Airborne Express and U.S. Mail. EVERY EFFORT is made to process your order the same day we receive it. Funco has the largest inventory of its type in the world, keeping out-of-stock items to a minimum. On items being shipped regular UPS ground, Funco gladly ships all items on back order at no additional charge, once the original shipping charge is paid.

Standard Shipping Charges
$4.95 plus 50¢ per game
Example: One Game = $4.95 + .50 = $5.45
Example: 4 Games = $4.95 + (.50 x 4 = $2.00) = $6.95
Simply double these rates if you live in Canada, Alaska, Hawaii, Puerto Rico, APO/FPO, or international orders.
All orders include insurance to cover your goods.

4. RUSH ORDERS
Funco is pleased to offer Airborne Express service on most packages, from one to eight games, for only $5.00 additional to the regular shipping charges (see Section 3 on this page). Most orders will be received in one or two business days from the time that you place your phone order. Rush orders must be placed by 3:00 PM Central Standard Time. Rush service is only available in the 48 contiguous states.

5. RETURNS
At Funco, we value your business and would like every customer to be satisfied with each purchase. Of the thousands of orders we process, we receive very few returns. It's important to note that all orders are final and returns can only be exchanged for the same title. We encourage you to first try the game you wish to purchase from a friend, or rent it from a video store so you will be less likely to be disappointed with your purchase.
Up to 80% of the returns we receive could have been avoided if the customer cleaned his/her control deck or game. This is the main reason we offer a year warranty on all of our products purchased with a cleaner. When ordering, please ask your friendly Funco agent for details.
However, if you do have a problem, we want to solve it. **Our customer service hours are 9:00 AM to 4:00 PM weekdays, and they will be more than happy to help. Please call them at (612)533-8118.**

6. SELLING US YOUR GAMES
Funco's success, in part, has been it's ability to help you stretch your gaming dollar by purchasing games you no longer play. To this end, we try to be as fair as possible. Prices are merely a function of supply and demand, much like gasoline pricing. Unfortunately, video game pricing is almost as unstable as gas, so the prices listed in the first column to the right of each title on pages seven, eight, and ten are merely the **Suggested Value** of what we would pay you at the time this magazine went to press. Prices will change; some go up, but most will go down over time.

Steps In Selling Games To Us
a) Before you call, alphabetize the games you wish to sell.
b) Call us at (612)533-8118.
c) Write the date and the name of the Funco agent you spoke to, along with the list of games you wish to sell.
d) Be sure to include your name and address on this list.

Most of our customers ship their games to us by UPS or U.S. Mail. Due to better tracking abilities, we recommend UPS.

Deductions:
We deduct $3.00 for any missing outside display box and $1.00 for missing instruction on Nintendo games. For Sega Genesis games, we deduct $7.00 for a missing box and $3.00 for a missing manual.
We always pay at least $1.00 for any game listed, even after deductions. For other game and accessory prices, please call your friendly Funco agent.
Deduction Exceptions:
We do not deduct for missing outside display boxes when:
a) You are using the full amount to purchase other games.
b) The game was originally purchased from Funco. In this case you must provide a copy of your original invoice.

Paper reference RGB, bright-pixel median: 244/236/227 to 250/251/249 | Native-pixel sample: (940, 440, 1650, 500)

05 Editorial and Hot Seat advertisement

Observed: The upper article paper is brighter and less yellow than the lower advertisement. Boy/chair detail is compressed.

Correction: Independent spatial paper calibration across both sections, plus a small lower-photo tonal lift. Cyan lettering and red/yellow graphics remain colored.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 250/229/202 to 251/250/251 | Native-pixel sample: (1240, 3050, 1510, 3150)

06 NHL Hockey reviews

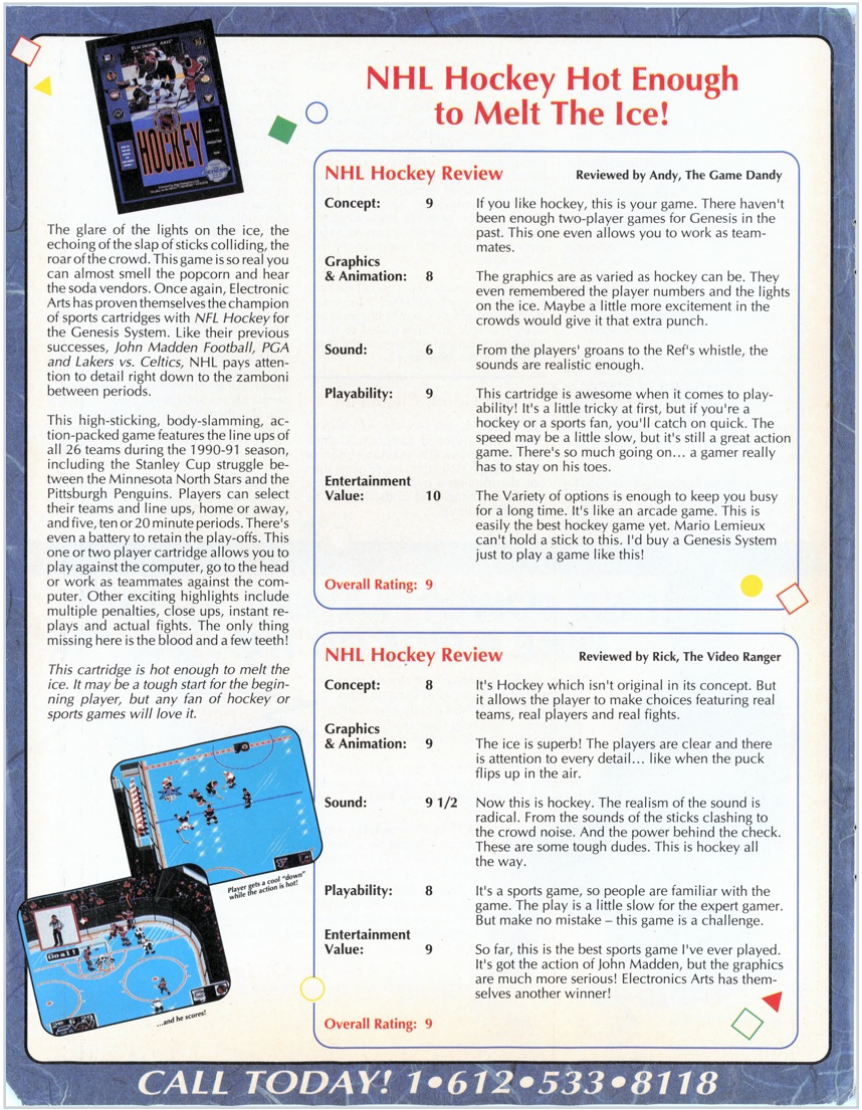

Observed: Warm center paper and substantially more amber paper along the right side.

Correction: A page-specific spatial field restores blue and green most strongly at right. Mild tonal opening preserves dark screenshot detail; red headings, blue frame, and yellow accents are protected.

CORRECTED

NHL Hockey Hot Enough to Melt The Ice!

The glare of the lights on the ice, the echoing of the slap of sticks colliding, the roar of the crowd. This game is so real you can almost smell the popcorn and hear the soda vendors. Once again, Electronic Arts has proven themselves the champion of sports cartridges with *NFL Hockey* for the Genesis System. Like their previous successes, *John Madden Football, PGA and Lakers vs. Celtics,* NHL pays attention to detail right down to the zamboni between periods.

This high-sticking, body-slamming, action-packed game features the line ups of all 26 teams during the 1990-91 season, including the Stanley Cup struggle between the Minnesota North Stars and the Pittsburgh Penguins. Players can select their teams and line ups, home or away, and five, ten or 20 minute periods. There's even a battery to retain the play-offs. This one or two player cartridge allows you to play against the computer, go to the head or work as teammates against the computer. Other exciting highlights include multiple penalties, close ups, instant replays and actual fights. The only thing missing here is the blood and a few teeth!

This cartridge is hot enough to melt the ice. It may be a tough start for the beginning player, but any fan of hockey or sports games will love it.

NHL Hockey Review

Reviewed by Andy, The Game Dandy

Concept:	9	If you like hockey, this is your game. There haven't been enough two-player games for Genesis in the past. This one even allows you to work as teammates.
Graphics & Animation:	8	The graphics are as varied as hockey can be. They even remembered the player numbers and the lights on the ice. Maybe a little more excitement in the crowds would give it that extra punch.
Sound:	6	From the players' groans to the Ref's whistle, the sounds are realistic enough.
Playability:	9	This cartridge is awesome when it comes to playability! It's a little tricky at first, but if you're a hockey or a sports fan, you'll catch on quick. The speed may be a little slow, but it's still a great action game. There's so much going on… a gamer really has to stay on his toes.
Entertainment Value:	10	The Variety of options is enough to keep you busy for a long time. It's like an arcade game. This is easily the best hockey game yet. Mario Lemieux can't hold a stick to this. I'd buy a Genesis System just to play a game like this!

Overall Rating: 9

NHL Hockey Review

Reviewed by Rick, The Video Ranger

Concept:	8	It's Hockey which isn't original in its concept. But it allows the player to make choices featuring real teams, real players and real fights.
Graphics & Animation:	9	The ice is superb! The players are clear and there is attention to every detail… like when the puck flips up in the air.
Sound:	9 1/2	Now this is hockey. The realism of the sound is radical. From the sounds of the sticks clashing to the crowd noise. And the power behind the check. These are some tough dudes. This is hockey all the way.
Playability:	8	It's a sports game, so people are familiar with the game. The play is a little slow for the expert gamer. But make no mistake – this game is a challenge.
Entertainment Value:	9	So far, this is the best sports game I've ever played. It's got the action of John Madden, but the graphics are much more serious! Electronics Arts has themselves another winner!

Overall Rating: 9

CALL TODAY! 1•612•533•8118

Paper reference RGB, bright-pixel median: 253/233/207 to 252/251/245 | Native-pixel sample: (2360, 1930, 2430, 2310)

07 Docs advertisement and editorial

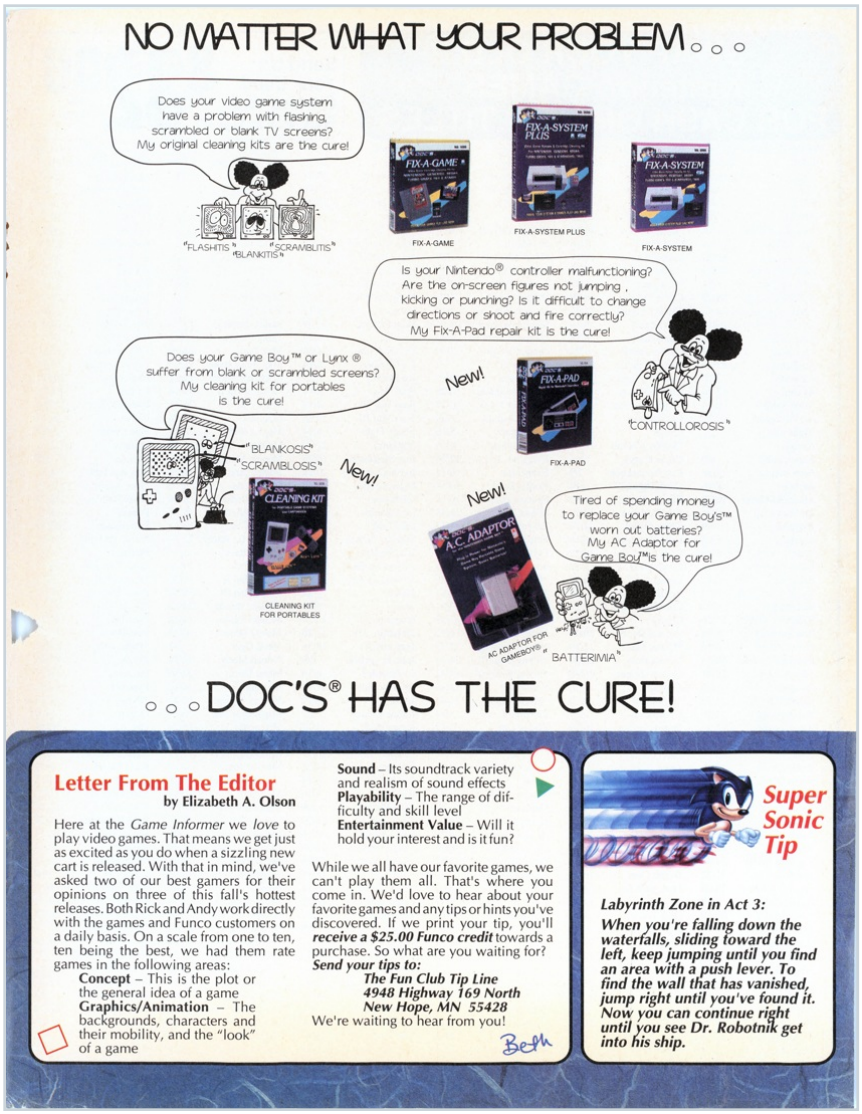

Observed: More severe top-left edge yellowing, mild right-side yellowing, and dark product packaging.

Correction: Asymmetric paper-field correction and a small midtone lift. Blue/magenta packaging, red editorial accents, and the blue lower border retain their intended palette.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 252/235/212 to 250/252/250 | Native-pixel sample: (30, 150, 260, 600)

08 Trade-in price list

Observed: A deliberately yellow price field, with yellowed neutral header, footer, and outer paper.

Correction: Neutral paper receives local correction. Saturated yellow receives only 35% of that color correction, protecting the printed yellow field; dark neutral lettering is cleaned gently.

7 CALL FUNCO TODAY! 1•612•533•8118

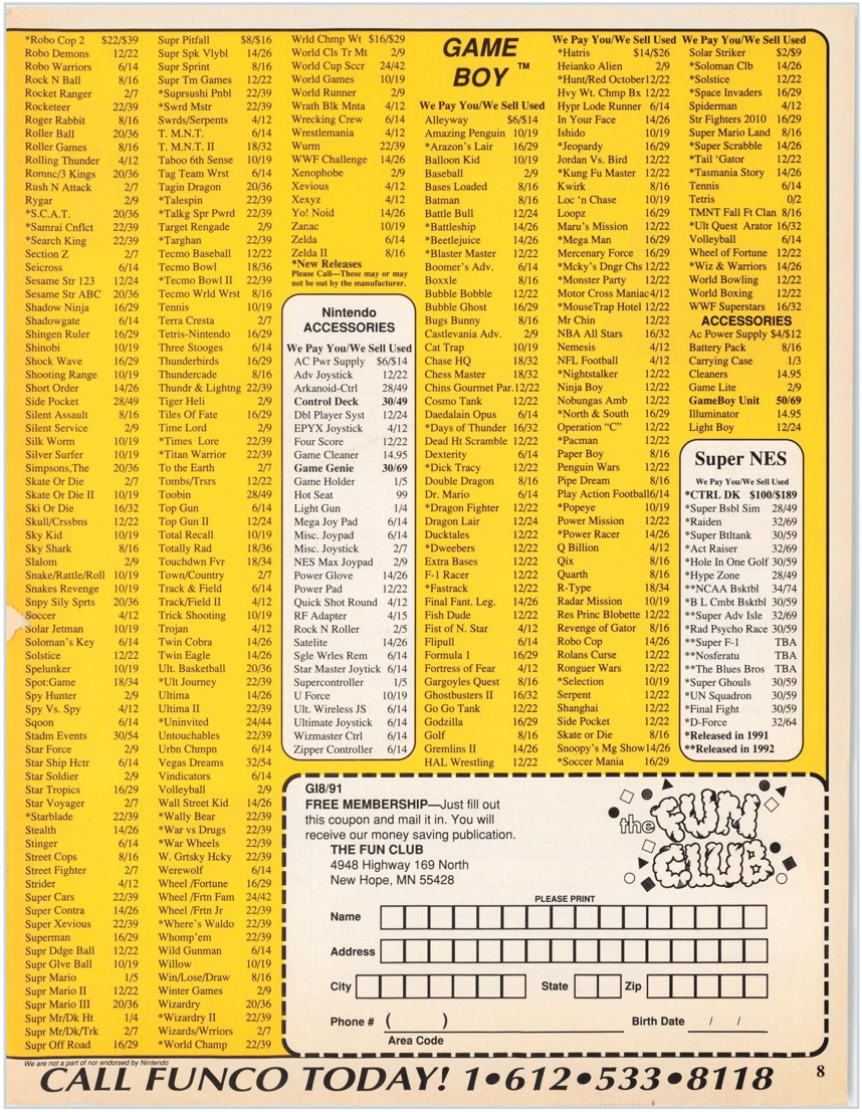

Paper reference RGB, bright-pixel median: 246/233/217 to 250/252/252 | Native-pixel sample: (1780, 90, 1840, 115)

09 Price list and membership coupon

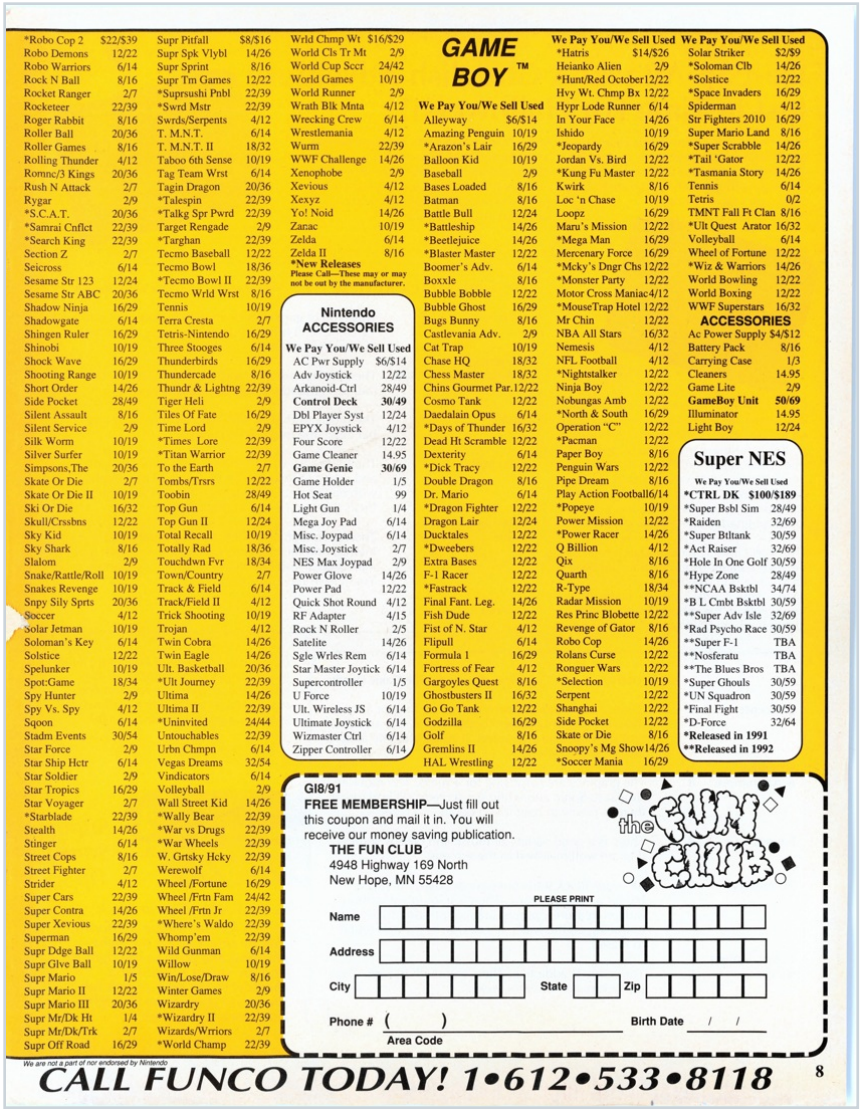

Observed: A deliberately yellow list and warmer neutral coupon/footer paper, especially near the bottom.

Correction: Stronger local paper cleanup at the bottom; saturated yellow receives only 30% of the color correction. A restrained black-point adjustment improves the dense small type.

SOURCE SCAN

CORRECTED

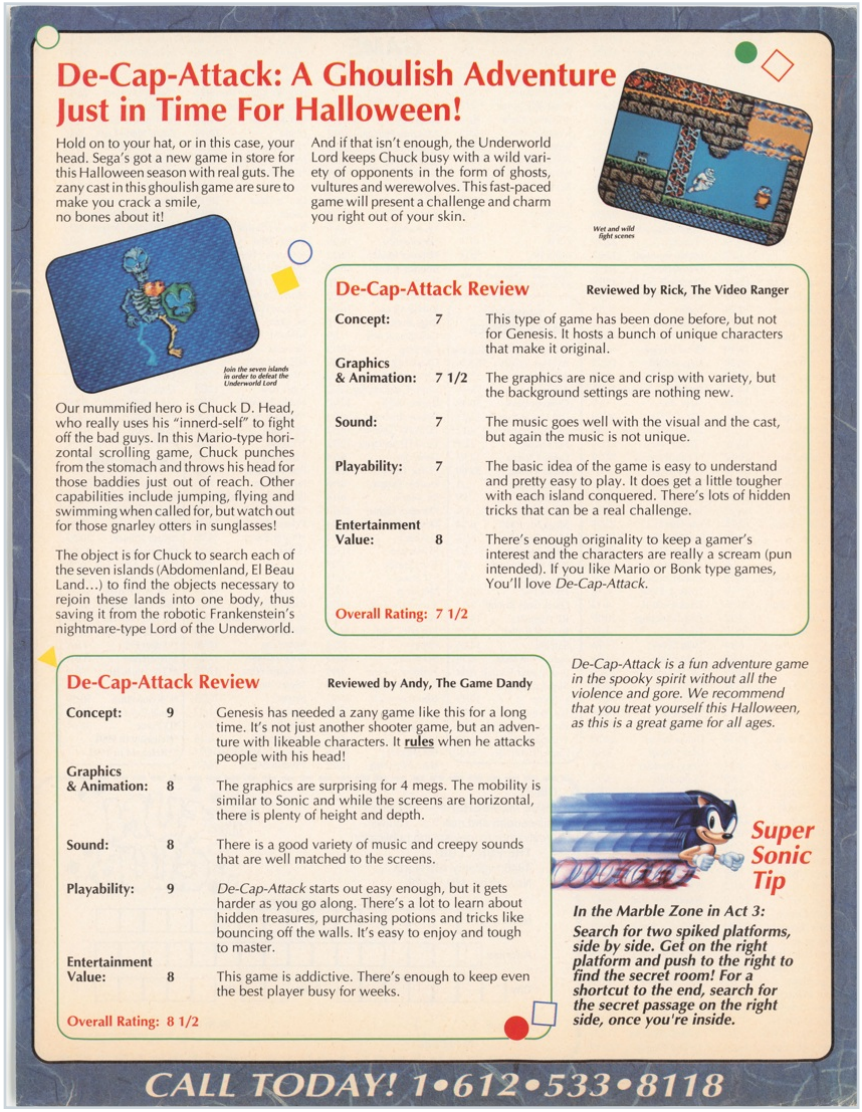

Paper reference RGB, bright-pixel median: 252/242/231 to 250/252/252 | Native-pixel sample: (1320, 2550, 1520, 2650)

10 De-Cap-Attack reviews

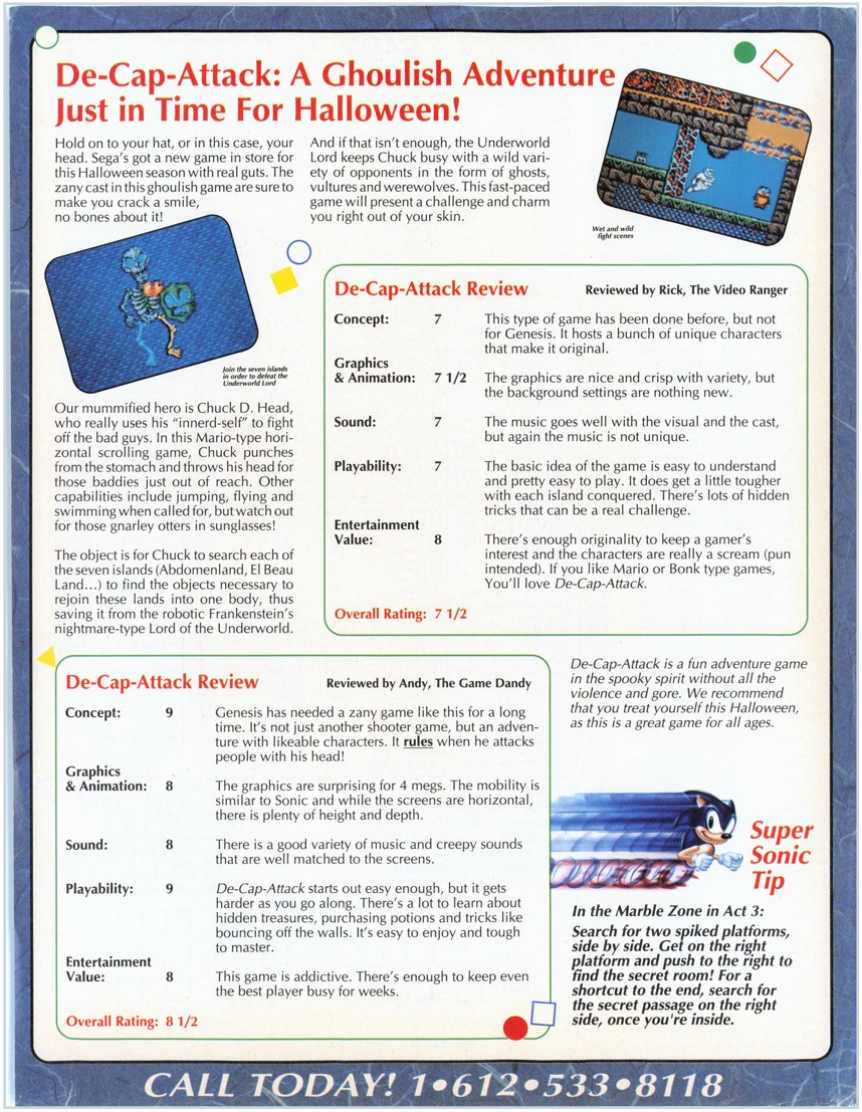

Observed: Warm paper center and stronger right-edge yellowing; dark screenshot midtones.

Correction: Independent spatial substrate correction and a modest tonal lift. Red headings, green rules, blue framing, and screenshot color are retained.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 253/236/215 to 251/252/250 | Native-pixel sample: (2320, 2100, 2420, 2300)

11 Genesis catalog

Observed: The saturated yellow list is intentional. Neutral logo, accessory panels, and margins are yellowed, particularly at the outside edge.

Correction: Paper-based local calibration, with saturated yellow restricted to 32% correction. Small tonal and neutral-shadow adjustments strengthen fine black lettering.

SOURCE SCAN

CORRECTED

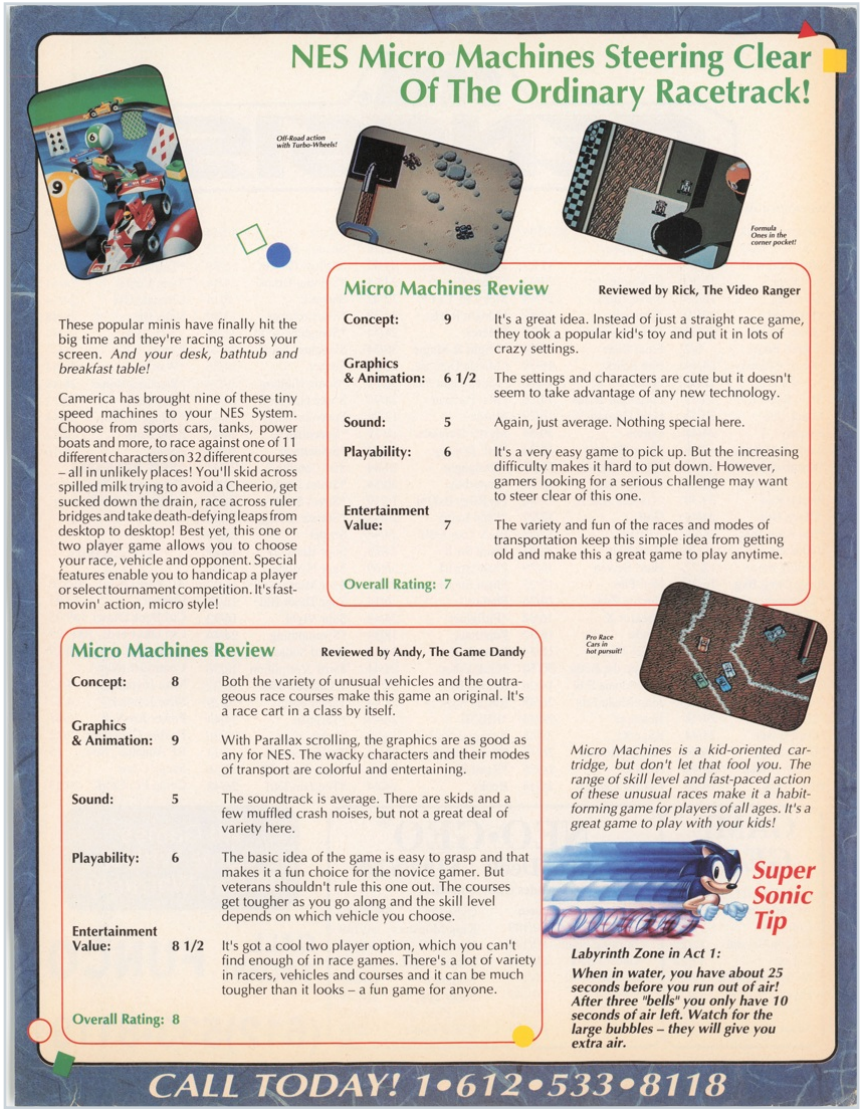

Paper reference RGB, bright-pixel median: 249/238/225 to 250/253/253 | Native-pixel sample: (110, 2500, 540, 2580)

12 Micro Machines reviews

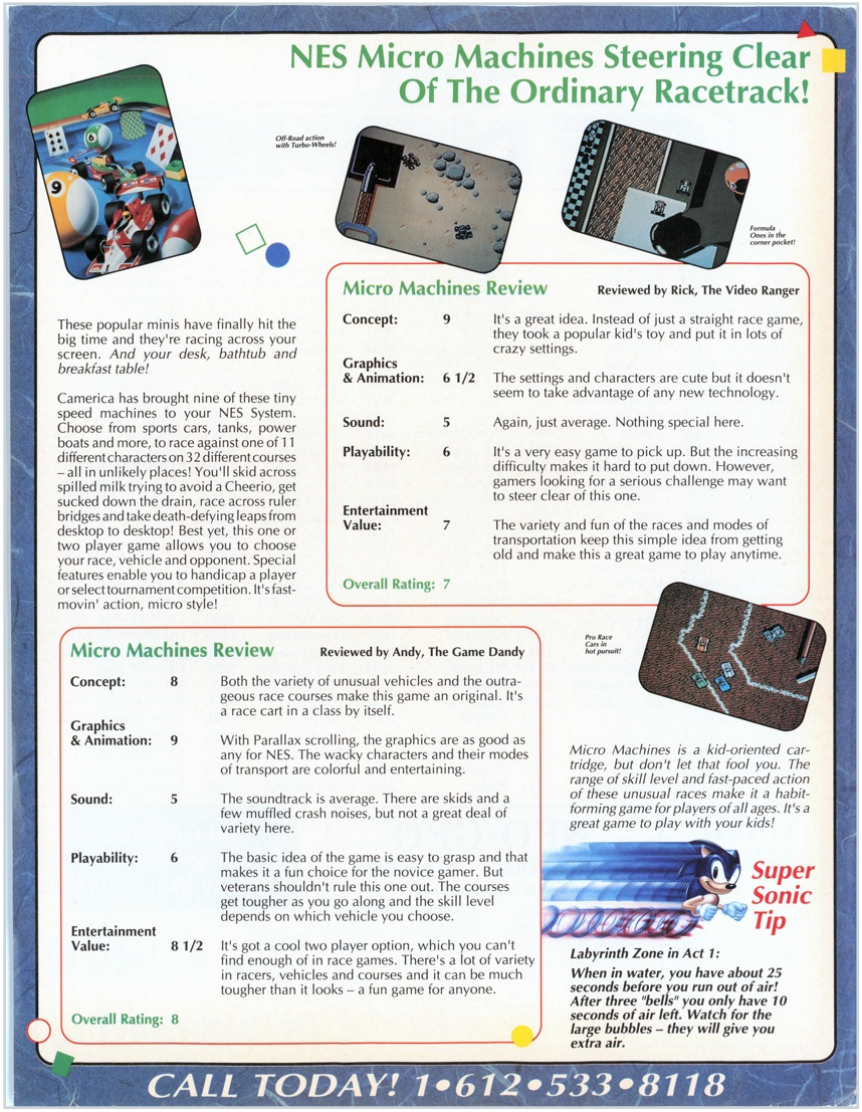

Observed: Warm cream/pink paper, with additional lower/right darkening and yellowing.

Correction: Local paper and color normalization with a small tonal lift. Green headings, red rules, screenshots, Sonic artwork, and the blue frame retain their color.

SOURCE SCAN

CORRECTED

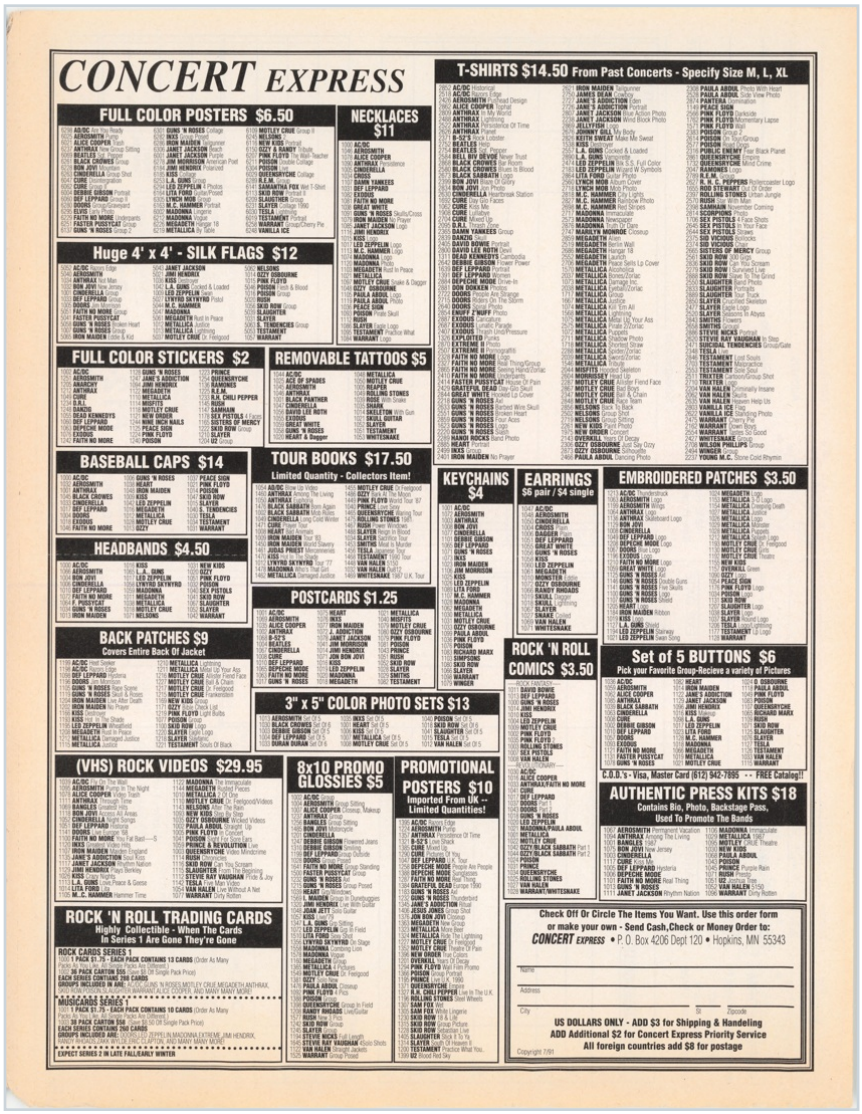

Paper reference RGB, bright-pixel median: 250/238/227 to 249/251/251 | Native-pixel sample: (1860, 1700, 2250, 1750)

13 Concert Express catalog

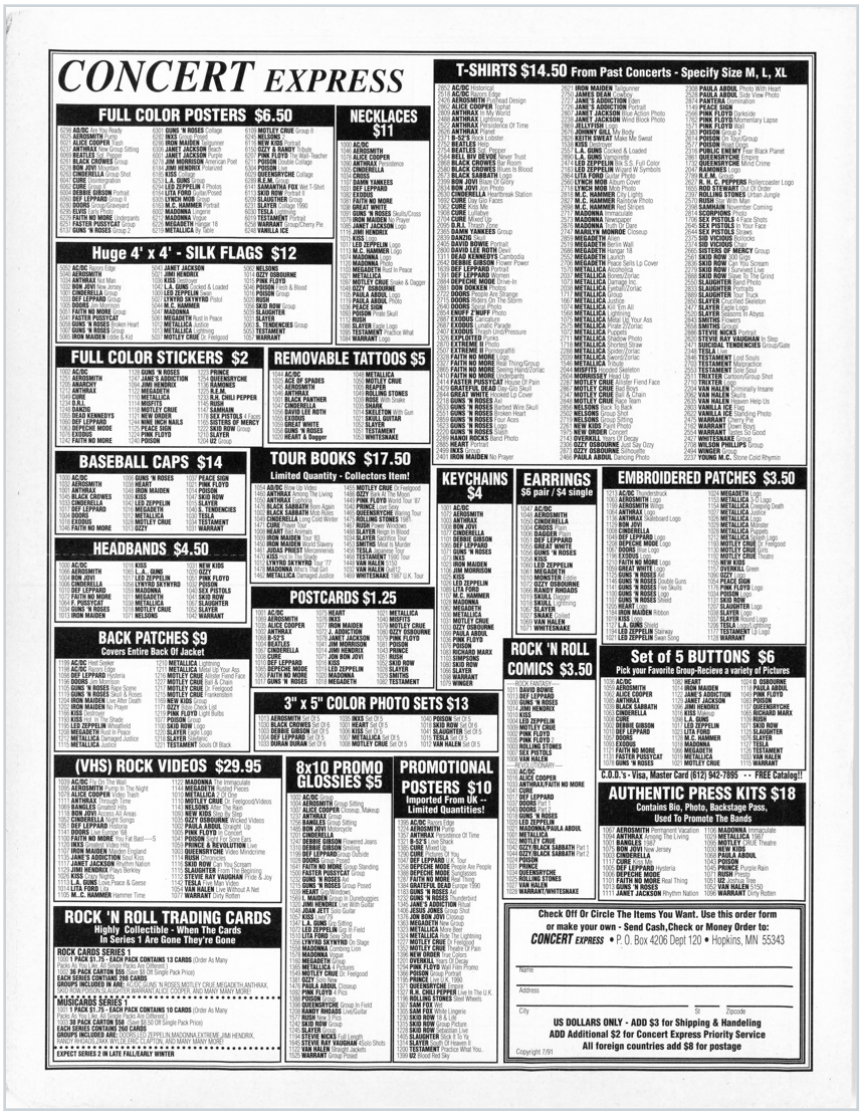

Observed: Monochrome advertisement on yellow/orange aged paper, with stronger aging at its perimeter.

Correction: Stronger spatial neutralization, grayscale encoding, and a conservative contrast adjustment. Fine text counters and the original printed detail are preserved without thresholding.

SOURCE SCAN

CORRECTED

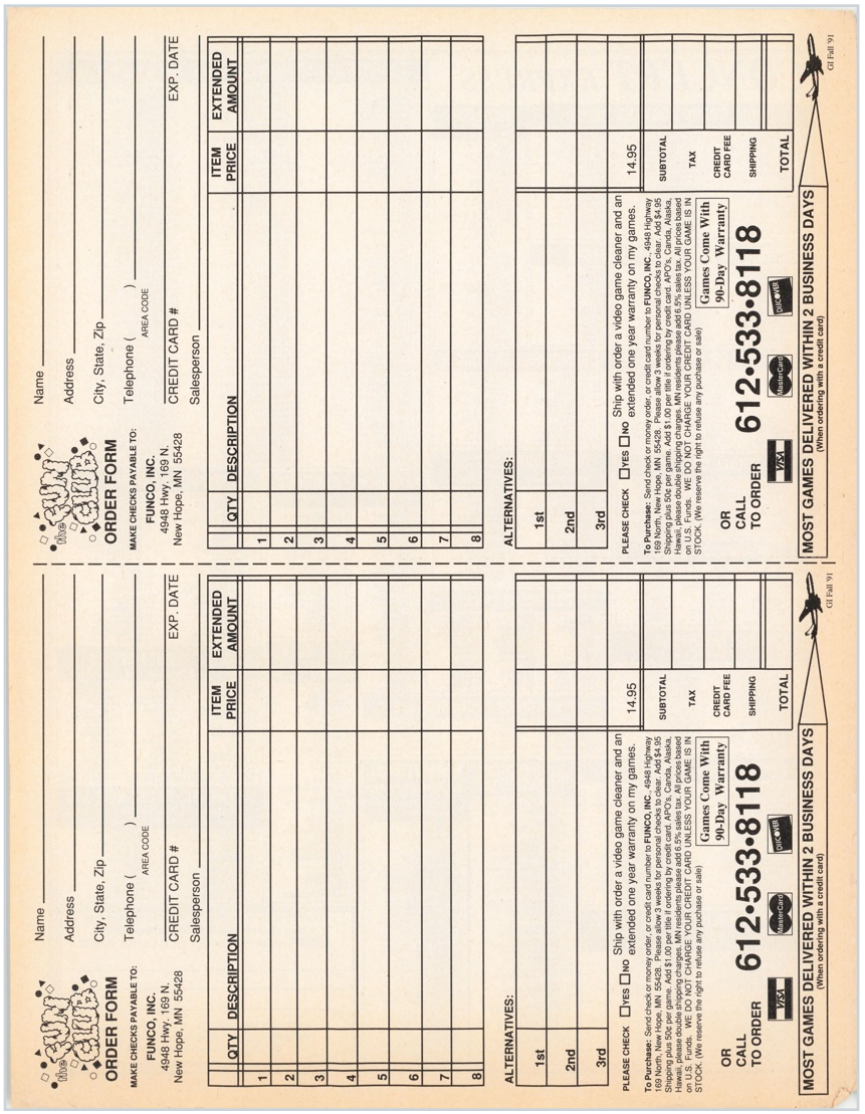

Paper reference RGB, bright-pixel median: 249/238/225 to 253/253/253 | Native-pixel sample: (1770, 2850, 2260, 2880)

14 Order form

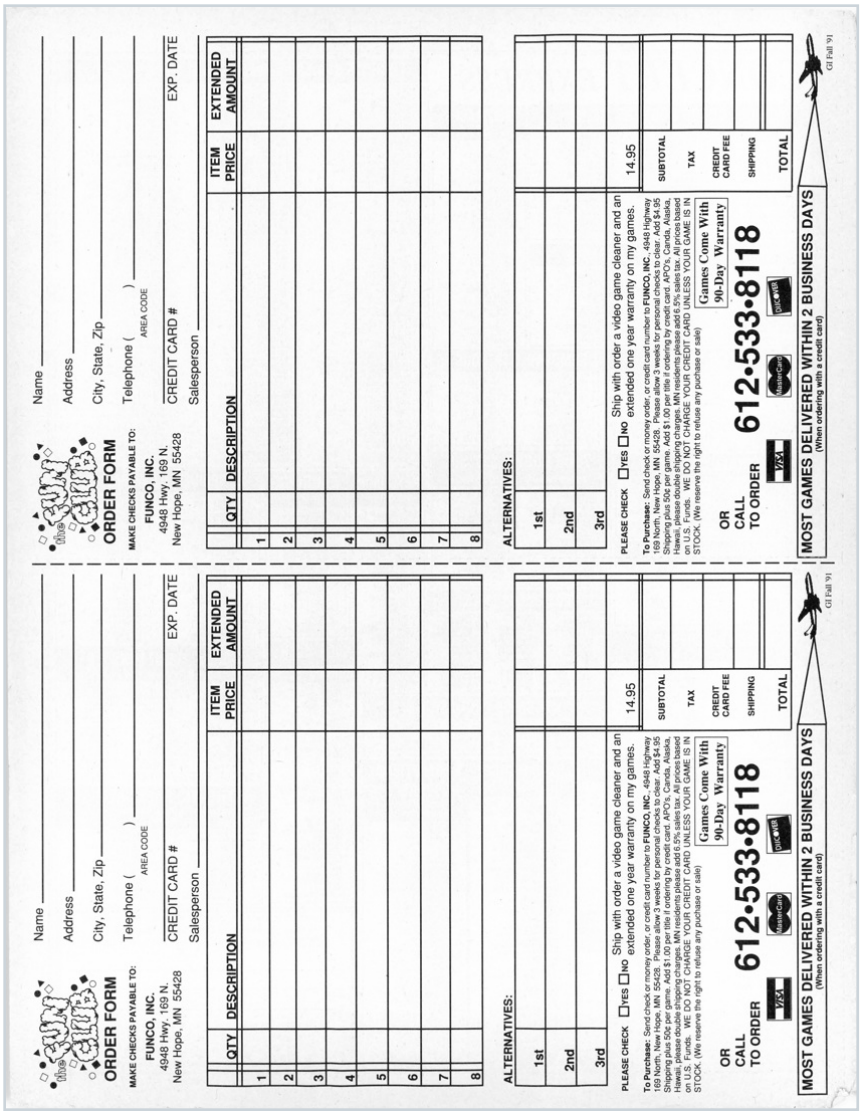

Observed: Monochrome form with an especially orange right edge and milder warm interior paper.

Correction: A distinct spatial field compensates for uneven aging. Grayscale encoding and restrained contrast preserve fine gray rules. The original sideways layout is retained.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 252/222/189 to 243/243/243 | Native-pixel sample: (2460, 1200, 2500, 1600)

15 Entertainment-system prize advertisement

Observed: Intentional maroon/black design; compressed hardware shadows and warm white lettering/coupon.

Correction: Conservative paper-white calibration and selective tonal opening anchored at black. Maroon, the television image, and the dark background are retained.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 244/236/227 to 250/252/251 | Native-pixel sample: (1700, 2660, 2230, 2710)

16 Micro Machines back cover

Observed: Mildly warm whites and flat/dark color artwork. The separately applied mailing label is newer and more neutral.

Correction: Conservative balance from printed postage paper, a separate neutral reference for the mailing label, and a modest tonal lift. Blue reflections, green header, yellow graphics, and red cars remain distinct.

SOURCE SCAN

CORRECTED

Paper reference RGB, bright-pixel median: 242/232/220 to 250/252/252 | Native-pixel sample: (2140, 2650, 2430, 2680)
